Roscoe's at The Jackson Laboratory
The Art + Science of Creativity
Edison T. Liu, M.D., President and CEO

The Jackson Laboratory

is an independent, nonprofit
biomedical research institution and

a National Cancer Institute-designated Cancer Center employing more than 1,700 people. Headquartered in Bar Harbor, Maine, it has a facility in Sacramento, CA, and a new institute for genomic medicine in Farmington, CT. The Laboratory's mission is to discover precise genomic solutions for disease and empower the global biomedical community in the shared quest to improve human health. www.jax.org

The Jackson
Laboratory

Maine Center for Creativity (MCC)

is a nonprofit
organization working to forge

alliances between arts and industry that make Maine more vital economically, more vibrant culturally, and more visible, as a place where innovation and creativity thrive. The board, staff and volunteers of MCC are building an engaged network of people and organizations across the state to form unexpected partnerships that generate bold ideas and inspire collaboration and action, so that Maine grows economically and culturally.

Maine Center
for Creativity

Maine Development Foundation

(MDF) is a private, non-partisan membership
organization that drives sustainable, long-term

economic growth for Maine. MDF's strategic focus is a productive workforce. MDF believes that a productive worker is one that is educated, healthy, innovative, and engaged in their community and the economy. Created in statute in 1978, MDF stimulates new ideas and provides common ground for solving problems and advancing issues by empowering leaders, strengthening communities and guiding public policy with trusted economic research. www.mdf.org
